

Zero T

Registered Design

Zero T is the newest piece of furniture by Ak47 Design.

It is an eclectic multi-functional object.

Zero T can become a coffee-table, a bookcase, a practical container or stylish eco-friendly fire pit.

The fire bed creates a warm and cosy atmosphere, the room it inhabits becomes a relaxing and lively space.

The essential lines of its contemporary design provide uniqueness and style to modern living spaces, which require intelligent and flexible solutions.

Zero T is a perfect synthesis of aesthetics and functionality.

It has been conceived to fit even the smaller settings.

Its 1000mm diameter makes it the ideal piece of furniture to add character and personality to your living area.

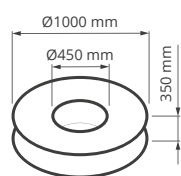

Zero T can be placed open-air, to enhance outdoor spaces with a touch of originality for special and unforgettable moments.

Zero T

Registered Design

Zero T
Ø1000 H350 mm
Container compartment depth 210 mm

Structure: Powder coated steel
Finishing: White, Black, Vintage brown

Accessori venduti separatamente
Glass fire screen, Storage cover

Version with bioethanol burner

Application

Indoor - AB3 Burner
Outdoor - AB8 Burner

Fuel

Bioethanol, a natural eco-friendly organic fuel.

How to operate

Bioethanol is poured into the dedicated burner.
When ignited, the bioethanol burns in a green and clean manner, producing a real flame without smoke or ash.
The bio-fire pit does not require a chimney and can be installed in any environment in the house.
(Indoor/Outdoor)

Decorative elements

All the decorative elements placed around the burner are included.
Colours and size may vary according to company discretion.
